

Strategy Plane

For the 2048 game clone

Who is this for?

The game would give a few minutes time-off of any stress to anyone who likes logic games. Furthermore, because its simplicity, it can be played from early age up to elderly people.

Is the content relevant?

It is a one-page website containing the game and information on the game.

Is the technology appropriate?

As the wide range of potential user-age and platforms, the most appropriate way to use the least technology and provide as many ways as possible for the user to interact with the game.

Business goals?

This website is made not-for-profit, the more user the better, not for business, but for the experience.

Why would a user want this?

It is simple to use and the game use the most available space of the screen making it available to people with vision related problems more usable.

What would be a good user experience?

The user would play the game with multiple available sizes and listen to music to have some stress less minutes. The player could see where they are on the leaderboard if they are up for a challenge.
